CARB 200 Series training program provides information on processes emission points, controls and inspection points for a variety of industrial processes. Each course includes a classroom session and field training at a representative facility, which gives the opportunity to see how the information applies to a "real world" situation. The courses are beneficial not only for the inspector, but also for individuals involved in rule development, permitting and emission inventory development.

<u>DATE/TIME</u>	<u>TOPICS</u>
Monday, December 6, 2004 8:00 am – 4:30 pm	Incinerators Course - # 270 * - Bob Warland (With pm field visit)
